No. 284

Railways in Great Britain.

The following will give some idea of the money invested in Railways in Great Britain.

Britain: "The extent of capital invested in railways in the United Kingdom, and the enormous circulation of money involved in them, is something startling. A recent number of the *Builder* says that it has been shown that 14,247 miles of railways are now being worked in the United Kingdom, on which have been expended no less a sum than £500,000,000."

times the amount of the annual value of the real property of Great Britain, and two-thirds of the National Debt. The gross annual revenue of the railways in the country, after deducting all working

penses, exceeds £22 000,000 sterling, more than the total revenue, from all sources, of Belgium, Holland, Portugal, Denmark, Sweden and Norway. The companies have in their direct employment more than

100,000 officers and servants. The value of the rolling stock exceeds £30,000,000. The consumption of coal and coke by railway engines amounts to between 2,000,000 and 3,000,000 tons a year; so that in every

minute of time throughout the year about four tons of coal are consumed, and twenty tons of water are flashed into steam. The consumption of fuel is about equal to the coal exported from Great Britain to foreign countries. There are more than 2,000

tons of iron laid down in rails alone, and the chairs would weigh nearly 1,000 tons; so that there are not short of 4,000 tons of iron on the permanent railway of the United Kingdom, and of these ab-

Prevention of Small-Pox.

theory that the hideous disease of smallpox originates from an excess of albuminoid matter in the blood, and this is to be prevented by the administration of common salt. The habits of children in India

over freely in sweetmeats he considers a great cause of this undue development of albumen, and coffee and tea, if highly sugared, tend also to excite it in adults. An organic acid, such as lemon juice,

considers the best means of freeing the blood, when clogged up with too much humen, and he alleges that by taking these simple remedies by way of precaution he has, for upwards of twelve years past

frequented or taken up his abode in the most pestilential small-pox hospitals of Europe and South America with entire impunity. The means of prevention appear certainly somewhat simple; but they n

be worthy of investigation by some of the medical boards, as if they do no good, they certainly cannot be productive of harm.

Hamilton Times.

We have recently seen several recipes published as beneficial in case of earache, but one who has a severe attack of the malady will, we think, soon find the

efficiency of them all. There is, however, one remedy which the experience of two years has taught us is unfailing. We have seen it repeatedly tried in our family, and have recently recommended it to others.

always with the same satisfactory result. No household should be without its bottle of arnica. It is indispensable in cases of cuts, burns and bruises, and in earache: a sovereign cure. As soon as any sore

is felt in the ear—which feeling always precedes the regular ‘ache’—three or four drops of tincture of arnica poured in, and then the orifice filled with little cotton to exclude the air; and in short time the unpleasant sensation

the arnica is not resorted to until there is actual pain, the cure may not be so speedy but it is just as certain. If one application of the arnica does not effect a cure it will be necessary to repeat it; it may be applied

We have never yet known any harm serious inexperience to attend this use

arnica; though if the spirits with which it is made are very strong, it may be diluted with a little water, as the spirits—not the arnica—will sometimes cause a temporary dizziness of the head, which is unpleasant.

—*Arthur's Magazine.*

An Acknowledgment.

The New York *Sun* pays Canadian Customs House Officers the following tribute:

' Americans who have occasion to visit Canada usually find the Custom House officials courteous, obliging and not dis-

But when they return to the States they are met on the frontier by American officials whom for rapacity and insolence as a class it would be difficult to match. A

the majority of travellers are entirely ignorant of the laws relating to the collection of customs, great opportunities are afforded for making illegal exactions, and these opportunities are frequently improved to the

himself for his scrutinizing zeal is the Customs officer at Vanceboro, Me., who failing to find anything subject to duty in the trunks of some lady travellers, a few days ago confiscated their lunch basket and

triumphantly confiscated a pint bottle of cherry, and another of claret, which they had provided for use during the tedious railway journey."

All the Moscow students who signed the address in favor of liberty of the press have banished to Siberia.

Belleville to Liverpool or London—

Cabin \$10 to \$12, according to position of

passenger.

Sturgeon, which includes a plentiful supply

of well cooked provisions, covered by the ship's

stores.

Return tickets at reduced rates.

An experienced Surgeon accompanies each

steamer.

Berth not secured until paid for.

Persons wishing to send for their friends can

obtain passage certificates at lowest rates from

England, Ireland or Scotland, to any railway

station in Canada or the United States. (When

tickets are sent direct to the ship, no extra

charge is made.)

The first steamer FOR QUEBEC will be

despatched from Liverpool (calling at Derby)

about the 15th April, and from Glasgow, call-

ing at Kingston (Dublin) about the 20th April.

The steamship of the Allan Line comes direct

to the Belleville wharf at Belleville (South

Quebec), the baggage is checked through to

Belleville, and passengers are forwarded on at once, thereby avoiding all in-

convenience.

For through tickets and every information apply

to

Morning Despatches.

GREAT BRITAIN.

House of Commons.

Chairmanship of Committees.

Expenditure not to be reduced.

Strike of Agricultural Laborers.

London, April 4.—The House of Commons resumed its sittings this evening.

John G. Dobson, Member for East Sussex, resigned the chairmanship of Committee of the Whole House, which position he had held since 1885. Mr. Bonham Carter, Member for Winchester, was elected to fill the vacancy.

The House, on a motion of Mr. Vernon Harcourt, resolved that the expenditure was to be reduced.

The agricultural laborers in Cambridgeshire have struck for higher wages.

SPAIN.

The Popular Vote in Madrid.

Espartero, Sagasta and Topete Defeated.

Madrid, April 4.—The popular vote in the city of Madrid today was as follows: Espartero, 13,368; Sagasta, 13,368; Topete, 13,368.

Among the most prominent of the candidates for the Congress in the Capital, Espartero, Sagasta and Topete are all beaten.

MEXICO.

Eruption of a Volcano.

A Grand and Awful Spectacle.

Progress of the Rebellion.

Sketch of Recent Operations.

San Francisco, April 3.—The volcano of Colima, Mex., which for the past two years has been a source of activity, is now in full eruption, throwing out clouds of smoke, which fall over a large section of country, and are said to be as dense as those of the Vesuvius.

The volcano is reported to be as dense as those of the Vesuvius.

The volcano is reported to be as dense as those of the Vesuvius.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4 P. M.

MADRID, April 6.—The elections for the Cortes in the town of San Lorenzo, Catalonia, were accompanied with serious disorder. A mob attacked the building where the voting was in progress, and completely stopped the election. The urns containing the ballots were demolished, and the poll lists were scattered throughout the town. Several persons were injured during the attack, but no fatal results are reported. There was also considerable excitement in the town of Santiago, and Riela, caused by a priest appearing at the polls and attempting to vote with a revolver in his hand. He was arrested and the excitement subsided.

SEATTLE, April 6.—The Steamer Columbia, from New York for Glasgow, arrived yesterday.

NEW YORK, April 6.—The Steamer Columbia, from New York for Glasgow, arrived yesterday.

Special Telegram this Afternoon.

Ottawa and Toronto Railway.

TORONTO, April 6.—Mr. Hubert, Director of the Ontario and Quebec Railway, and Mr. Keefe, Engineer of the Company, have arrived here. The entire route from Ottawa via Peterborough to Toronto has been examined and a very favorable report made. The question of extending the line to the north, and passing to the west side in order to avoid the heavy grade over the heights three miles east of Toronto, is now suggested for attention. There is an old standing difficulty that has long engaged the attention of engineers, and a thorough examination of all points north-east of the city will at once be made.

A machine at New Haven performs the work of making needles without the manual labor of any person, and turns out 3,000 to 4,000 of them daily.

A telegram reached England from Yeddo, Japan, yesterday, stating that an attempt had been made upon the life of the Mikado. Two of the would-be-assassins were promptly arrested.

A telegram from St. Louis, Mo., states that a freight railway accident occurred on Thursday night, on the Chicago and Alton and Rock Island and Rock Island Railroad, resulting in the death of eight or ten persons.

Yesterday, while Mr. Mayer, bugger, master, was coupling cars at Clifford Station he was crushed between the cars and so badly injured internally, that small hopes of his recovery are entertained.

—Father Gavett, accompanied by the Rev. Mr. Thompson, of Pennsylvania, leaves Liverpool for the steamer Alaska for the United States, as a delegate from the Free Italian Church to America's Congress.

—In respect to the recovery of America's most illustrious officer the New York stock exchange, it is reported that the fortune of Mr. Morse, and his possessions, is now being sold in New York.

—The cashier of the Bank of America has been elected to America with a large amount of business funds for some time at work near by, on account of some "fine hour" or trade union coercion disagreement.

use it. 250/3m

Wheeler's Compound Elixir of

Phosphates and Gallics.

There is a diseased condition of the body in
which the Wheeler's Compound Elixir of
Phosphates and Gallics may not be used with
positive benefit. Being a chemical food and
nutritive tonic, it acts physiologically in the
same manner as food. It perfects digestion,
assimilation, and the formation of healthy
blood. It restores the vital force by supplying
the waste constantly going on, of nerve and
muscle, at the result of cerebral and spinal
exhaustion, enabling mind and body to undergo
labor without fatigue. It acts in
building up constitutions broken down with
Wheeler's Disease, by fast living, and
bad habits, in truly extraordinary, its effect
being instantaneous in expelling all poisons
of the body. Phosphates being absolutely
essential to cell action and the growth of
tissues, must for all time be Nature's great
restorative and vitalizer.

See all Druggists at St.
February 24th, 1872.

FELLOWS' Compound Syrup of Erythrophosphates.

As all life-endowed bodies, whether they be
plants, birds, reptiles, insects, or even
man, are composed of the Vegetable Kingdom,
and are governed by vital force, which binds all
the springs of existence, and as nothing can save
them from destruction when the vital force
leaves them—the discovery of means whereby
they may be restored to the living body is
indeed a boon to the world.

Modern Chemistry has investigated the question
and discovered the ingredients composing the
brain, muscles and nerves, and finds that by
introducing these ingredients in proper pro-
portions the brain and nervous system are
restored.

This, then, is substantially the basis on which
Fellow's Erythrophosphates is built, the direct
action is upon the Blood, the Brain and Nervous
system, and the Muscles. Throughout the
system, it causes the rapid distribution of
Vitalized Blood in the Muscular Organ of the
Body.

Reinforcing the Stomach Heart and Liver,
strengthening the action of the Stomach and
Bowels, and enabling the Lungs to be fully
saturated with Oxygen.

It is adapted for all cases of Weakness and
Exhaustion, whether arising from a sedentary
life, a tropical climate, from fever or debility
after disease, and is a sufficient in Pulmo-
nary Consumption, may be continued until
the system is fully restored, and all diseases
have been cured and all constitutions have
been strengthened.

In Brochures a specific and in Athens it
gives relief where every other remedy fails.

For Nervous Debility it is an inviolable and
may be used with confidence in all cases.

As it is entirely different and different from
every other advertised remedy, it is
careful to ask for FELLOWS' SYRUP, and take
no other.

Sold by Apothecaries. Price, \$1.00; Six for
\$5.00.

JAMES L. FELLOWS, Chemist,
1810 St. John St., B.

JOHN TEMPLETON,
Belleville, March 27, 1872.

A FACT OR TWO

1st.

It is wretched economy to hold on another year with faded, soiled, worn Paper, a standing invitation to all the thefts, pecuniary and otherwise. **ANOTHER YEAR!** With so few years allotted, who can afford to give up 1872 to dimness and shadow?

2nd.

And it is an offence to our better nature that we buy and hang up in one's face, worn Paper that we do not like, because, being unsalable, it is bought cheap.

3rd.

It is wisdom to select from New Stock and new Patterns

Money cannot be laid out in home furnishing in any way so economically as in Bloomington. A few dollars judiciously expended in paper will drap the whole home new, and make it "all beautiful within."

We have a considerable part of the Spring orders in and with that to arrive shortly will have on view such a stock as we feel safe to say has never before been offered here.

SPECIAL NOTICES.

SMOKERS, for a good smoke, use

The Myrtle Navy. See T. & B. on

each plug. Price so low that all can

use it.

Wheeler's Compound Elixir of

Phosphates and Gallaia.

There is no disease of the body in

which Dr. Wheeler's Compound Elixir of

Phosphates and Gallaia may not be used

with benefit. It acts physiologically in the

same manner as our food. It perfects di-

gestion, assimilates and forms of healthy

blood. It sustains the vital force by sup-

plying the elements of life, and thus pre-

vents the waste of vitality. It is a

valuable remedy in all cases of debility,

and is especially useful in the treatment

of the following diseases:—Wasting

Chronic Diseases, by fast living and

improper diet, and by the use of

drugs, and by the use of the

S. M. PITTSBURGH & CO.

37 FINE HALL, NEW YORK.
GEO. P. ROWELL & CO.
40 PARK ROW, NEW YORK.

Daily Intelligence.

BELLEVILLE, WEDNESDAY, APRIL 10.

TO SUBSCRIBERS.

SUBSCRIBERS who do not receive their papers regularly will confer a favor by sending word at the office.

PERSONAL.

Mr. John J. Parley, son of J. Parley, Esq. of Toronto, passed on his way to the West.

THE NEW GOSPEL—LORD.

Deffen, the newly appointed, Geo. G. of Canada, will sail from England for Canada in June.

A NEW ENTERPRISE.

We are informed that Messrs. Price & White intend erecting a small saw-mill on the Point, where they will engage in the sawing of black ash lumber for the United States market.

GRAND BLACK CATER.

The annual meeting of the Grand Black Chapter of Ontario, Royal Black Knights of Ireland, will be held in the city of Toronto on the 7th day of May next.

GAS.

The upper portion of Front Street is again lighted with gas, the Company having succeeded in getting their pipes cleared of the ice which they were filled with that section.

TOWN COUNCIL.

In consequence of Monday next being a public holiday, the Council will not meet on Monday night. The meeting will be held on the following evening.

WELL DESCRIBED.

The *Oswego Press* says: "The spring style of dress, with pointed and collared jackets, makes the ladies look like small perambulating awnings."

THE VANDERBILT COMPANY.

This troupe performed last night in the Masonic Hall before a small audience. We cannot speak very highly of the entertainment as a whole, though Master Beane and Mr. Wheeler were, as usual, very clever.

MR. GEORGE'S SOCIETY.

The regular monthly meeting of the St. George's Society will be held to-morrow evening in the Masonic Hall at the usual hour. Arrangements will be made at this meeting for the celebration of St. George's day.

HEALTH NOTICE.

The Board of Health has issued an order directing the cleaning and purification of all public houses, stables, yards and other premises on or before the 15th inst., also forbidding the deposit of any refuse on the streets within the limits of the town. It will be well for those having unclean premises to attend to this, as neglect of the order will be promptly punished.

CARTER'S PATENT.

Mr. L. Forster has recently obtained a patent for a very simple contrivance for the purpose of simplifying the great labor of any one who works it, and those who have had their patients worked by the ordinary method of hand-strapping, can be thankful to the inventor for discovering a way in which it can be done without fear or worry. This cheap, being sold at one dollar and a half.

AUSTRALIAN INVENTION.

The land under wheat in Australia is estimated to be 1,500,000 acres which will yield about 17,000,000 bushels, or nine bushels a acre, the total population. The wheat crop in Australia is liable to very great fluctuations. In 1870, the average was only about 8-9 bushels a acre, while in 1871 it was 11-12 bushels a acre. The land under wheat in Queensland, for 1870, was 10,076 acres, and in all Australia there is about 10,000 acres of wheat. The number of sheep in these Colonies is very large. There were last year 707,800, 4,718,000 cattle, 1,304,000 sheep, 605,000 pigs, and 100,000 swine. The value of the wool clip was valued at \$10,000,000, and the value of the wool clip was valued at \$10,000,000.

various countries.

In Austria it is 14 bushels a acre, in Prussia 17, in Spain 22, while in Great Britain the average yield is from 38 to 40 bushels. France yields 31 bushels of barley to the acre, and in England 30 to 40 bushels.

ACCIDENT.

A workman named Hamilton, employed in Frost's cabinet factory, while sawing with a circular saw this morning, fell to the ground, and was killed.

FIRE IN WINDSOR.

A fire occurred in Windsor, Ontario, on the morning of the 9th inst., and extended to the stores of Frost, Jeweller, Cross, photographer, Hagarty, Jeweller, Marston, gunsmith, Quilley, Jeweller, Kater and Thornton, fruit dealer, and Barrett, American Hotel, all of which sustained great injury.

FIREMEN.

Now that winter is fairly broken up the usual reports of bridge destruction, etc., are beginning to come in. No less than three bridges are already destroyed in the neighborhood of Kingston, by the spring freshets, and two others are apparently doomed to the same fate.

REMOVAL OF GOV. ARCHIBALD.

An Ottawa telegram says: Lieutenant Governor Archibald has asked to be relieved, and his resignation was to day accepted by his Excellency. It is understood that his resignation was tendered some time before the autumn of last year. The government of the province will be administered by Judge Johnson until a permanent appointment is made.

MEMORANDUM QUINTELL CLUB.

A letter from Thos. Ryan, Esq., Secretary to the above mentioned committee, to a gentleman in town, states that the Quinte Club will pay a visit to Belleville on some day during the last week in May. This anticipatory statement will be hailed with satisfaction by the lovers of good music in our midst, as the Quinte Club is known to be composed of musicians of the first excellence, whose music is appreciated on the whole continent. We feel assured that a liberal patronage will be extended to them on their visit here. Arrangements for their appearance will shortly be completed.

WIND FLOWS.

Several flocks of wild pigeons were observed yesterday and to-day flying close to the town, and sportsmen are getting ready their shooting iron. The Hamilton Times thus describes the operations of a successful "shooters" near the "ambitious city." One man climbed to the top of a tall tree and remained there for hours watching the flocks of unsuspecting birds approaching him when he would fire into them. By this means he was enabled to pick up quite a bagful when he came down.

JURY TRIED WANTED.

A new machine, called the "Type" compound, has been exhibited for a week in the Museum of Science and Art, Edinburgh. The machine, by simply turning a handle, sets up types at the rate of 12,000 an hour, the work of an ordinary man. It is an ingenious application of the lever principle in printing to the very different process of typesetting. The inventor, Mr. Mackie, is proprietor of the *Warrington Guardian*. A machine of this description would be found exceedingly useful to printers at the present time.

LEAVING KINGSTON FOR TORONTO.

The *Whip* of the 9th inst. contains the following notice of a young gentleman who is well known in Belleville and who will carry with him his new home or best wishes for his country: "Mr. James Johnson left Kingston to-day for Toronto, where he expects to enter on a new path of labor and ambition. He had very many friends in Kingston, who will feel regret he has departed. While in Kingston he filled the duties of a clerk in the Museum of Science and Art, and has held different commands in the 14th Battalion, having been Instructor and Adjutant during the past two years. In these positions he has been a very useful and energetic officer. He is a member of the Literary Association and other public bodies has filled important posts. We feel sure we will hear of his success in his new home."

THE PRINTERS' STRIKE.

The strike slowly but surely, wends its way to the usual routine of the whole town. Some forty good workmen from the country have already exchanged low wages and uncertain work in the country, for the high wages and regular employment thrown up by the city printers, and numbers of others are on their way. Twenty-five of the best men who went out on strike have also seen the undeniable character of the movement and have returned to work for ever with the Typographical Society and secured permanent employment.

School Teachers.

THURSDAY, APRIL 10.
The Board met at 7 1/2 p.m. in the evening. Present—Messrs. McAnney (Chairman), Shepard, Duff, Taylor, Tennant, Worsley, Mowbray, Will, and others.

Minutes of last meeting were read and approved.

Mr. Gies presented the report of the Finance Committee, recommending the payment of the quarterly salaries, and of sundry amounts for various purposes, amounting in all to \$2,000 7/10. Adopted.

The Inspector read the report of the result of the recent quarterly examinations of the pupils.

The attendance is shown in the following table:

Mr. Shepard read the report of the report referred to the Committee on School Organization.

Mr. Will read the report of Mr. W. McCoy, being assigned as Teacher in School No. 3 until the 15th of May, at the same rate of salary as he now receives.

Mr. Sawyer seconded the motion, which was carried.

The Chairman read a communication from Messrs. Diamond and Douglas respecting the expediency of appealing against the judgment in the case of Taylor v. School Trustees, which they have to the opinion of the Board after stating certain points not touched in upon the judgment.

The judgment, a document of great length, was also read.

Will said the judgment appeared to him to be a very unfortunate one, as any one who heard the trial would know. He went on to state the reasons for his opinion, and thought it would be better to get a lawyer to see if certain material evidence not noted could not be got in.

The Chairman, advised the taking of the opinion of the Board, and thought the Board should authorize this to be done.

Mr. Shepard moved, seconded by Mr. Gies, the reference of the letter of Messrs. Diamond and Douglas and the judgment of Justice to a special Committee, with power to take the opinion of the Board, as to whether it is advisable to proceed further with the case. The Committee to consist of the Chairman, Messrs. Shepard, Will, and the mover and seconder.

The Board adjourned.

Belleville, April 9, 1873. d&w

A FACT OR TWO

1st.

It is a fact that economy to hold on another

year with faded, soiled Room Paper, a stand-

ing office to all the fine perceptions of a

man. ANOTHER YEAR! With so

many others, who can afford to give up 1873

to disease and shadow!

2nd.

And it is an offence to our better nature to

buy and hang up in one's face, Room Paper

that we do not like, because, being unsuitable,

it is a blot on the wall.

3rd.

It is wisdom to select from New Stock and

New Patterns. Examine! It is the motto

among Paper Dealers, and each year there is

improved taste in design, and greater beauty

of color. The patterns now coming in are

simply lovely.

4th.

Money cannot be laid out in home furnish-

ing in any way so economically as in Room

Paper. A few dollars judiciously expended

in paper will draw the whole home anew,

no American Agriculture

INTERESTING NEWS.
March 20th, 1872.

Daily Intelligence.

BELLEVILLE, THURSDAY, APRIL 18.

TOWN GOVERNMENT.

A meeting of Council will be held to-night, at the usual hour.

LONDON SOCIETY for Fair has been re-elected from Mr. J. C. O'Neill, bookkeeper. It is reported with interesting results, and is highly illustrated.

JOHN STREET CHURCH.—The work on the rebuilding of the church is progressing satisfactorily, and it is probable it may be opened for worship on the first Sabbath in May.

PERSONAL.

Mr. Robinson of the British American Presbyterian, the newly elected organ of the Canada Presbyterian Church, is in town, soliciting subscriptions for the journal with which he is connected.

COUNT HOUSE OVERHAUL.—Work on these grounds was commenced this morning, the object of labor at present being to drain a spring which issues from the bank south of the lower tier of steps.

FOR MONTREAL.—One hundred families, accompanied by a Presbyterian clergyman, all belonging to the neighborhood of Stratford, Ont., are to leave as soon as navigation opens, for Red River.

LEGISLATIVE FRAMES.—A number of boys who were this morning sporting picked up the river were closely watched by the inspector and two policemen. The inspector says, but the boys are hard to be caught, so no capture was made.

THE CATHACONS OF ROME.—By Mr. B. B. Jones, the above subject to-morrow evening in the Marble Hall, in aid of the funds of the Ladies Mutual Improvement Society. Those who attend will have a very interesting discourse and at the same time assist a valuable and popular society.

DUST.—Already the dust is beginning to fly on the streets, conveying the warning to the Town Council to prepare for street sprinkling. It is to be hoped that the service will be more efficiently performed than it was last year.

THE FERRY.—As anticipated yesterday, the steam ferry boat Prince Edward made her first trip this morning, and succeeded in landing on the opposite shore. The ice both east and west of the course of the steamer is still firm, though now decidedly breaking for crossing.

PUBLIC ACCOUNTS.—A detailed statement of the Receipts and Expenditures of the Dominion of Canada, for the year 1870-71, will be found in another part of to-day's paper. The figures show the country to be in an exceedingly healthy and prosperous condition.

THE FERRY.—We understand that the steamer Prince Edward, which was thoroughly overhauled during the winter, and has been improved by an upper saloon, nearly the whole length of the boat, will run this week between Oswego and Belleville, making tri-weekly trips. Particulars will be made known in a few days.

ONTARIO AND QUEBEC RAILWAY.

The following are the distances given on this route between Ontario and Quebec:

Ottawa to Carleton Place.....234 miles.
Carleton Place to Madoc.....80 "
Madoc to Peterboro'.....40 "
Peterboro' to Toronto.....75 "

235 miles.

COMPLIMENTARY SUPPER.

We observe by the Ottawa papers that a complimentary supper was given to Capt. Madden, Deputy Master of the Grand Orange Lodge, and Grand Master of the County Monaghan, by the Orangemen of that city.

Among those present who made speeches were U. K. Gowan, Capt. Madden, D. A. Ryan, Rev. D. P. Hutchinson and M. Bowen, M. P. To the toast of our country Captain Madden responded at considerable length. He said it was only about ten years ago that he first came to Canada, but the recollection connected with the trip would never be effaced from his memory. In a few days he would take his passage back to Ireland, in order to be present at the meeting of the County Lodge. When there he would not fail to tell the Brethren of this grand Dominion which, next to the United Kingdom, is the most fertile and favorite spot in the North of Ireland, was to his eyes the finest in the world. He highly complimented our volunteers, and said he had no fears of their success, and we could take our time. He observed a spirit of thorough loyalty in Canada, which did not exist even in England itself. In conclusion he said that this would not be his last visit to the Dominion where he saw so much to admire and love.

Trade and Navigation Returns.

The Trade and Navigation Returns submitted to the House on Tuesday, show a larger volume of commerce than the Dominion has known for the last year. The total quantity of goods entered for consumption in 1870-71, imported for consumption \$50,917,453. Duties on imports \$1,845,035 and exports \$1,173,918; showing an increase in the value of goods imported from \$10,250,000 to \$12,708,750; in duties of \$280,715, and in exports of \$600,158.

The goods entered for consumption from Great Britain have increased from \$38,587,425 to \$46,148,170, about 20 per cent; and during the same period the increase in goods imported from the United States was \$4,934,231, making the total importation from the United States \$23,693,027.

The value of exports to Great Britain has decreased from \$24,950,035 to \$24,173,234, and our exports to the United States have also decreased from \$39,954,625 to \$39,085,483, leaving an increase over the imports from that country of \$1,350,255.

The value of the bonded goods in the Queen's warehouses at the close of the fiscal year was \$7,693,526, representing duties to the amount of \$2,940,005.

The gross amount of duties collected for the twelve months ending the 30th June, 71, compared with the collections for the 12 months previous, show an increase of upwards of 35 per cent.

The Public Accounts Auditor's report of the estimate of the cost of the Dominion for the past year, has also been \$503,497, some portion of which may be considered expenditure deferred; the other land revenue has been \$5,450,000, and the total of \$1,905,500. This improvement has been experienced in almost every separate head of revenue since July, 1867.

There has been an expenditure on the capital account out of income, of \$6,104,707, and although \$5,540,000 of this amount was expended in the year 1870 and 1871, the net debt for the first time in the history of the country decreased by \$502,707.

Returns for Manitoba for the six months ending June 30, 1871, show the total goods entered to be \$385,337, duties collected, \$15,723. The exports, principally fur, dressed and undressed, for the quarter ending 30th June, 1871, were \$350,330. The exports of furs, dressed and undressed, for the quarter ending 30th June, 1871, were \$350,330. The exports of furs, dressed and undressed, for the quarter ending 30th June, 1871, were \$350,330.

The exports to Cuba show an increase of \$18,658, while the imports decreased by \$1,905,500. This improvement has been experienced in almost every separate head of revenue since July, 1867.

There has been an expenditure on the capital account out of income, of \$6,104,707, and although \$5,540,000 of this amount was expended in the year 1870 and 1871, the net debt for the first time in the history of the country decreased by \$502,707.

The Public Accounts Auditor's report of the estimate of the cost of the Dominion for the past year, has also been \$503,497, some portion of which may be considered expenditure deferred; the other land revenue has been \$5,450,000, and the total of \$1,905,500. This improvement has been experienced in almost every separate head of revenue since July, 1867.

that the police had knocked an eye out of a number of the mob, "that justice would soon be done," and it is asserted, "the people would soon be armed." Neither of these statements is true. The police are not numerous enough to cope with the mob, and the people are not armed. The police are not numerous enough to cope with the mob, and the people are not armed.

As Governor Parke, Trochu ought to have furnished daily reports of the danger to Count Palika, minister of war. He did not do such thing. He ought to have protected the Corps Legation on the fourth of September. He did not do such thing. He ought to have protected the Corps Legation on the fourth of September. He did not do such thing.

The second count was, attributing to Marshal MacMahon the phrase, "I believed (not believe) Trochu an honest man." The Marshal's defence was that he had never said such a thing. He had never said such a thing. He had never said such a thing.

The third count was, attributing to Marshal MacMahon the phrase, "I believed (not believe) Trochu an honest man." The Marshal's defence was that he had never said such a thing. He had never said such a thing. He had never said such a thing.

The fourth count was, attributing to Marshal MacMahon the phrase, "I believed (not believe) Trochu an honest man." The Marshal's defence was that he had never said such a thing. He had never said such a thing. He had never said such a thing.

not sufficient to achieve the purpose had in view. A grove of maples is no doubt very charming, but variety is needed. It is to be hoped that no time will be lost in procuring proper trees, as the time for planting is fast slipping away.

THE FERRY.—The "Prince Edward" was unable to make her usual trip today, the ice and low water having been too much for her. The ferry will be in service again tomorrow.

DRURY.—The services of a watering cart on Front Street today would have been gratefully appreciated by those who had to force their way through the clouds of dust and the German perfume that would have been less popular after the Commune.

As Governor Parke, Trochu ought to have furnished daily reports of the danger to Count Palika, minister of war. He did not do such thing. He ought to have protected the Corps Legation on the fourth of September. He did not do such thing.

Committee on Public Accounts. Many of the returns were never read, and thus the report upon them was never made.

Hon. Mr. Howe gave notice that he would move for an appropriation of \$44,000 a year for the purchase of the purpose of the geological survey.

Mr. Francis Jones moved for all correspondence respecting the International Bridge over the St. Lawrence. He thought that the bridge was a great improvement on the road at the time of late report should be able to decide as to the foundation of a bridge, without calling in an expert.

Mr. Walsh explained that what was at first supposed to be rock turned out to be sand and gravel; in order to settle the question of foundation, the Commissioners had called in disinterested engineers. The foundation was declared to be a good one and the work would now be pushed on without further loss of time.

The Senate resolution respecting an address of congratulation on the recovery of the Prince of Wales was concurred in. After a few unimportant motions, the House adjourned shortly after 5 o'clock.

The Albion Claims.

A synopsis of the counter case presented on behalf of Great Britain, at Geneva, was received by cablegram last night. It is a long and detailed statement, and contains many particulars of the case.

Town Council.

The Council met at 7 1/2 p.m.

Present:—Hon. Mr. Mayor, Messrs. Lewis, Hildreth, Patterson, Clarke, Hanley, Fisher, Holden, Vandusen, and Jones.

The minutes of the last meeting were read and approved.

PETITIONS.

The following petitions were read and referred to their appropriate committees:

From Geo. H. Hildreth, for the abolition of \$500 tax on the lot issued from the Town, which tax had not been secured.

From Geo. H. Hildreth, for the abolition of \$500 tax on the lot issued from the Town, which tax had not been secured.

The sum of \$107 might be called on the Town Council, as it was not in the report of real estate accounts, but it would be to call on the \$100 as available asset, simply to pay for the front of the building.

As the amount it was credited to 1871 from the balance sheet in 1872, the amount would be \$100 as available asset, simply to pay for the front of the building.

Mr. Foster moved that the amount of \$100 be called on the Town Council, as it was not in the report of real estate accounts, but it would be to call on the \$100 as available asset, simply to pay for the front of the building.

No. 309

then draw it down far enough to paste one card, slip it from the block and you have a box. Get two or three shallow boxes of boards, in which to sit these potted roses. Write the *name* of the rose you intended to plant on each box, fill with fine, rich earth, and a little sand; put a seed in each, one keep moist with water, cover with Easnel, and set it in a warm place. These plants can be grown.

—Olivia Logan commenced one of her lectures at Newark, recently, with the remark, 'Whenever I see a pretty thing, I want to clasp her in my arms.' 'You are shouting the boys in the gallery!' I murmured. Olivia was unprepared, but, recovering her self possession, she replied, 'Well, boys, I don't blame you.'

MARRIAGE.

BLANK RETURNS of Marriages for sale at the *Intelligencer* Office.

LET THERE BE HARMONY IN THINGS NECESSARY.—LIBERALITY IN THINGS NOT NECESSARY.—*Epigram*

BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA.

No. 302

Political Facts—In Plain: Not having no unscrutinized Connection!

1. The Royal Canadian Bank receives share of the Provincial account. Messrs. H. J. G. and J. H. G. are appointed directors to the bank.

2. Mr. Boyd, M. P. P. for Prescott, is elected at the polls, and so loses the chance of sitting in the departmental chair of the Federal Government.

3. Mr. H. M. Wells is appointed County Attorney for York.

4. Mr. MacKenzie is President of the Late Royal Bank Insurance Company. An list of \$5,000 goes to the way into the Provincial Treasury for the first time, under the heading "Insurance."

5. Messieurs Edward Blake and Adam Crooks really came to the determination support Queen's College. Mr. Adam Crooks figures in the list.

Items from the Year Book is 1872.

The population of Confederated Canada is 3,375,577.

The Montreal Telegraph Company has 725 offices and 14,986 miles of line.

The paid up capital of the Canadian bank amounts to \$38,240,131.

The Returns of the Post Office Savings Banks for the year ending 30th Sept, 1872 show the amount deposited up to that time to be \$1,661,755,505 nearly one-half of which was in the form of cash interest.

It snowed in Pembroke 96 days in 1871 at Quebec city snow fell 80 days. At Hamilton on 82 days.

The number of miles of railway in Canada at present in operation is upwards of 3,000.

The number of vessels built in Canada during the fiscal year ending 30th June 1870, was 529; the number registered was 453, having a tonnage of 110,839 tons.

In the trade of Canada in 1850 amounted to \$1,490,000; in 1860 it was \$1,850,000; in 1870 it was \$1,435,357, 825. These figures show the country's real progress.

The average tonnage of the ships built each of the four Provinces—Ontario, Quebec, Nova Scotia, and New Brunswick—is as follows:—Ontario, 1,000 tons; Quebec, 350 tons; Nova Scotia, 240 tons; New Brunswick, 400 tons.

The value of Bacon and Hams exported from Canada in 1869-70 was \$1,533,000; in 1870-71 it was \$1,533,000.

2,900,000 bushels of wheat were exported from Canada in 1868-9; and 8,700,000 bushels in 1869-70. In 1871 the export of coarse grains amounted to 8,800,000 bushels.

The exports of Hides from Canada in 1869-70 were valued at \$450,000 less than during the former year, while the exports during the same year, except for \$5,138, 191.

British Colonies have a coast line of 21 miles and a total area of 200,000 square miles. Population estimated at 50,000.

Joe Hill discusses these at the "Denver Horn." This is the oldest and most "sacked" road in the West.

Joe Hill says "Hence West Hence" about it. It has been listened to with more rapture and delight than even Graef's band has.

Rodman's king. It will arrest a man
bring him quicker than a Sheriff's
It has such an easy chair note,
It goes clear to hear and dumb to touch
Joy, Gloster-o-o-o instruction.

—An exchange thus describes the edict of the *Prisoners*. Mr. Grosley has a style, and a style that is not a style. He walks in not to realize the poetry of music, but to see him how it is to be won at a game. He intones up his little nose, he opens a partial smile his pleasant mouth, he shows a head, a little one, and he is a deliriously good with his hand, and the deer, cultivated way of the infant or jerks his polished old head and makes good. I defy his worst enemy to whom makes list bow and a gallie. He is in no mood to be a Saddle Rock oyster. He puts on airs; he blows his nose mildly in a silk handkerchief, and begins to go in a naturally and goodly way. He is a great fellow, and he is a great fellow in a great fellow, fat unnoted upon his ears.

STREALING A KITE IN THE TUNNEL.—The following was written by the author, who has been "tuned" (Gauls' remark), and he says, "dear me not to be personal—but you ever kiss a girl in a railroad tunnel? I never did, but if the truth must be told, I would, 'twould be awful bad. Not that the place is so dark and narrow confines of a tunnel render a kiss more delicious than if stolen, or taken with full permission anywhere else, but that is the novelty of the thing; the place is so dark and narrow, the air is so close, the light so no time; the sudden assault; the desperate defeat; the acute agony of the awkward loss of hair; pine; the carrying of the work; the loss of the surrender; the commendable meanness afterward, of the victory. Thus hurried repairs, and the impossible attempt to appear pleased and satisfied, and the loss of the surrender, and the loss of a short time spent in kissing a girl in a tunnel."

Special Telegrams this Afternoon.

From Port Colborne.

Port Colborne, April 28.
The propeller America left this morning, towing the barque Clyde out through the tug. A good sail vessel in going coming in, tug had got to bar and was waiting here. The schooner Wm. B. Cullen, from Oshawa, arrived on Tuesday night, and at 10:30 she was towed through the locks of the river with the tug, which went out to meet her. She reports the ice getting soft and breaking up.

Morning Despatches.

FRANCE.

Officers of the Bureau.

PARIS, April 28.—The periodical review of the officers of the Bureau of the Assembly of the Deputies of the Republic was not re-elected chairman.

SPAIN.

Opening of the Cortes.

The Speech from the Throne.

No Mercy to the Rebels.

MADRID, April 28.—King Amadeo delivered his speech in person at the opening of the Cortes.

His Majesty first alluded to the relation of Spain with other powers, and stated that they were of a cordial nature. Venezuela, he said, had made a most satisfactory explanation of her position, and the King of the Netherlands had also made a satisfactory explanation of her position. The King also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

The King anticipates that he will soon be able to announce an agreement between the Pope and the Italian Government.

He says he intends to be the first to visit the United States, and to go to the United States to see the President.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

He also alluded to the relations between Spain and the United States, and stated that they were of a cordial nature.

(By Royal Letters Patent).

F. GROSS.

SPECIAL NOTICES.

SMOKERS, for a good smoke, use

The Myrtle Navy. See T. & B. on

each plug. Price so low that all can

use it.

Wheeler's Compound Elixir of

Phosphates and Calcey.

There is no disease condition of the body in

which Dr. Wheeler's Compound Elixir of Phos-

phates and Calcey may not be used with

positive benefit. Being a chemical food

nutriment, it acts physiologically in the

same manner as our food. It purifies the

blood, assimilates and the formation of healthy

tissue. It sustains the vital force by supplying

the waste constantly going on, and of nerve and

muscle, as the result of mental and physical

exertion, enabling mind and body to undergo

fatigue without fatigue. It builds up the

constitution broken down by

Wasting, Chronic Disease, by bad habits, and

bad habits, is truly extraordinary, its effect

being immediate in everything all the organs

of the body. Phosphates being absolutely

essential to the life of the system, and of

tissue must for all time be Nature's great

remedy for all diseases of the body.

Sold by all Druggists at

F. GROSS, 1872.

FELLOWS.

Compound Syrup of Hypophosphites.

from Great St. James Street.

He has also Apple's Family Shuttle Sewing Machine. Price \$25.
JAMES BARRETT,
PATENTED AND MANUFACTURED BY
Belleville, Ont., July 31, 1871.

ALBION HOTEL,
MORILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS BEEN THE FAVORITE RESORT OF
the general travelling public in the United States, as well as of Canada, when visiting
Montreal on business or pleasure. It is generally known as the "Hotel of the
River," and is situated on the banks of the St. Lawrence, a few minutes' walk from
the Victoria Bridge on the left, and a few minutes' walk from the Victoria
Hotel on the right. The Hotel is furnished with a separate building, and
everything arranged with a view to the comfort of guests. As one of the largest Hotels in
the Dominion, having ample accommodation for 500 guests, who are kept in the style
of the most modern hotels, the Hotel is a most desirable place of residence, and
will suit the wants of all who visit Montreal.

JAMES BARRETT,
PATENTED AND MANUFACTURED BY
Belleville, Ont., July 31, 1871.

ALBION HOTEL,
MORILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS BEEN THE FAVORITE RESORT OF
the general travelling public in the United States, as well as of Canada, when visiting
Montreal on business or pleasure. It is generally known as the "Hotel of the
River," and is situated on the banks of the St. Lawrence, a few minutes' walk from
the Victoria Bridge on the left, and a few minutes' walk from the Victoria
Hotel on the right. The Hotel is furnished with a separate building, and
everything arranged with a view to the comfort of guests. As one of the largest Hotels in
the Dominion, having ample accommodation for 500 guests, who are kept in the style
of the most modern hotels, the Hotel is a most desirable place of residence, and
will suit the wants of all who visit Montreal.
